SOUTHWIRE SOLUTIONS PROVIDER

Innovative processes and products to improve the safety and quality of electrical installations.

WIRE SOLUTION CAPABILITIES

Southwire has reinvented the reel and has a variety of wire solution capabilities customized to fit your needs. Revolutionize your job site by having time saving, field-installable solutions designed to transport your materials safely and easily.

SIMPULL® CIRCUIT MANAGEMENT SYSTEM

With the SIMpull® Circuit Management System, set-up and installation can be completed in a fraction of the time with much less manpower and effort compared to traditional methods of wire pulling.

TOOLS AND EQUIPMENT

Optimize your bottom line effortlessly with Southwire's tools and equipment, designed to simplify calculations, estimations and installations. Built for durability and reliability, ensure efficiency and peace of mind on the job site.

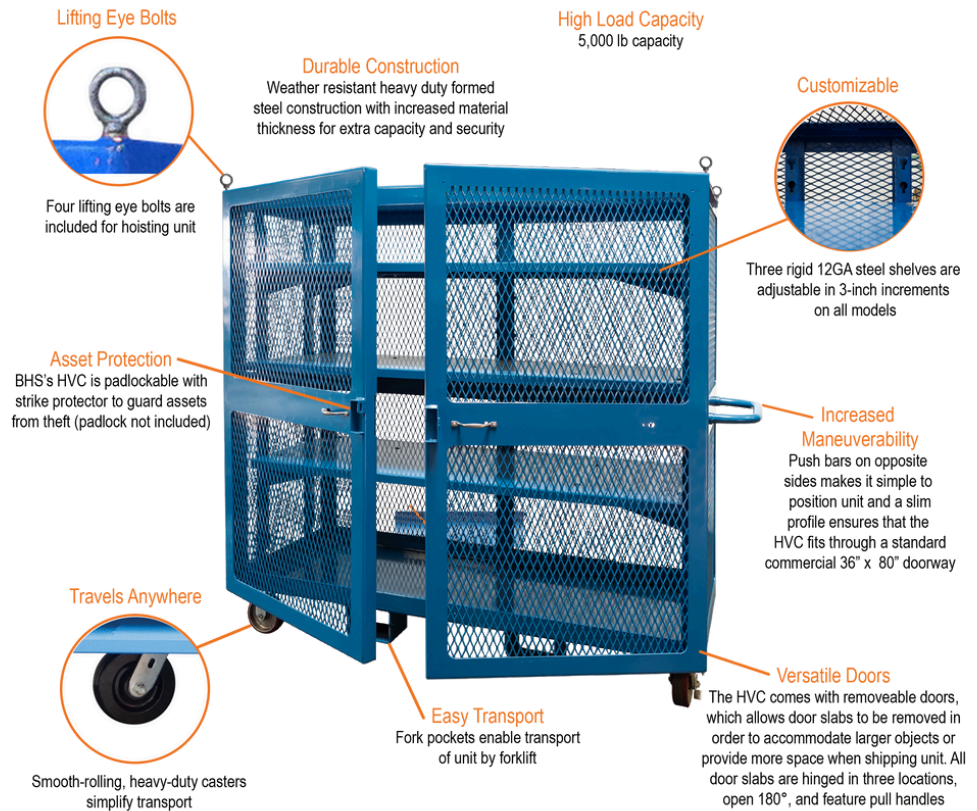

JOB SITE SOLUTIONS

JOB SITE CARTS

On-site, secure storage for your job site available today. High Value Cart is a portable and secure storage unit that will protect your valuable tools, equipment, and supplies while on the jobsite. With its versatile frame, you can transport your belongings with ease while allowing easy access for authorized personnel to your assets stored inside. The many benefits High Value Cart offers will make this the perfect solution for all of your onsite storage needs.

Equal parts flexible and mobile, this highly mobile storage unit with adjustable shelves and security will give you the confidence that your belongings are in good hands while being conveniently accessible.

- Lockable cage to store material
- Easily move material around the job site
- Lowers risk of material being stolen
- Keep material consolidated and organized
- Keep on-site for the duration of the job and refill as needed

JOB SITE SOLUTIONS

LIGHT FIXTURE CARTS

Light Fixture Carts (LFC) carry bulk electrical materials through job sites for quicker, safer installation. Each unit carries full-sized commercial light fixtures with a total load limit of 1,000 pounds. Save time on any commercial construction project by easily transporting all light fixtures directly to the point of installation. This ergonomic material handling cart is designed specifically for light fixtures, so it keeps these valuable materials more secure than stacking them onto a non-specialized cart. It is also safer for electricians, as it removes the common manual material handling task of carrying light fixtures to the installation site.

- We ship unpackaged fixtures to your job site to increase installation efficiency and reduce labor costs
- Save ~ 10 minutes per fixture (unpackaging fixtures and waste disposal) – We unpackage the fixtures FOR YOU
- Fits 24 2x2 ,12 2x4, strip fixtures
- Spot fixture damage BEFORE they arrive on the job site

READY TO JOIN THE
REVOLUTION?

EV CHARGING SOLUTIONS

At Yale Electric Supply, we have a comprehensive inventory of EV Charging solutions, including warranty and software support, ready and at your disposal. Whether you are a homeowner, business owner or an industry professional, we have the EV charging solutions you need to power up for the future.

- We have a team of experts ready to assist you during every aspect of your project
- Variety of eco-friendly solutions available

PREFABRICATION FACILITY

Our highly experienced crew along with licensed personnel can handle your prefab needs. We complete both large and small projects - or you can do it yourself using our large selection of advanced tools and equipment. **Save time and money using our cutting-edge machinery and tools.** Reduce errors and scraps and increase workflow efficiency.

CUSTOM PREFAB ASSEMBLY NEEDS

Our facility is equipped with cutting-edge tools and technology. Let us accommodate your custom prefab assembly needs.

TIME

Every hour invested in prefab cuts 2 1/2 on-site man-hours

SAFETY

Prefab happens off-site, minimizing exposure to jobsite hazards

PRODUCTIVITY

When prefab is shifted off-site, on-site labor is maximized

QUALITY

Off-site prefab is performed in a controlled environment and follows a specified standard. It allows for uniform product with multiple quality checks throughout the process

INVENTORY MANAGEMENT

To help your business succeed, we've made inventory replenishment automatic and painless with our Inventory Management System. Now ordering and maintaining your inventory is faster and easier!

HOW IT WORKS

To accommodate your specific challenges, we'll meet to review your current inventory processes and future goals. We'll develop recommendations and then review those recommendations with you. Together, we'll map out a custom system that fits your unique situation.

INSTALLATION & IMPLEMENTATION

- Designed to your needs, flexible, and easy to use - your new system may include bins, bar-codes, job cages, software, and even trailers
- Adjustable - as your business grows, your system grows with it
- Initial inventory is taken and an order is created based on current on-hand quantities
- Training provided

PLACING & REPLENISHING ORDERS

- Replenishing your inventory is quick, easy, and nearly automatic
- **Auto-replenishment** - automatically re-order material based upon minimum and maximum inventory thresholds
- **Scan-to-order** - scan barcodes to re-order materials as needed - barcodes can be listed in barcode booklets and/or on labels

Category	Product Name	Barcode	Image	Box Qty.
